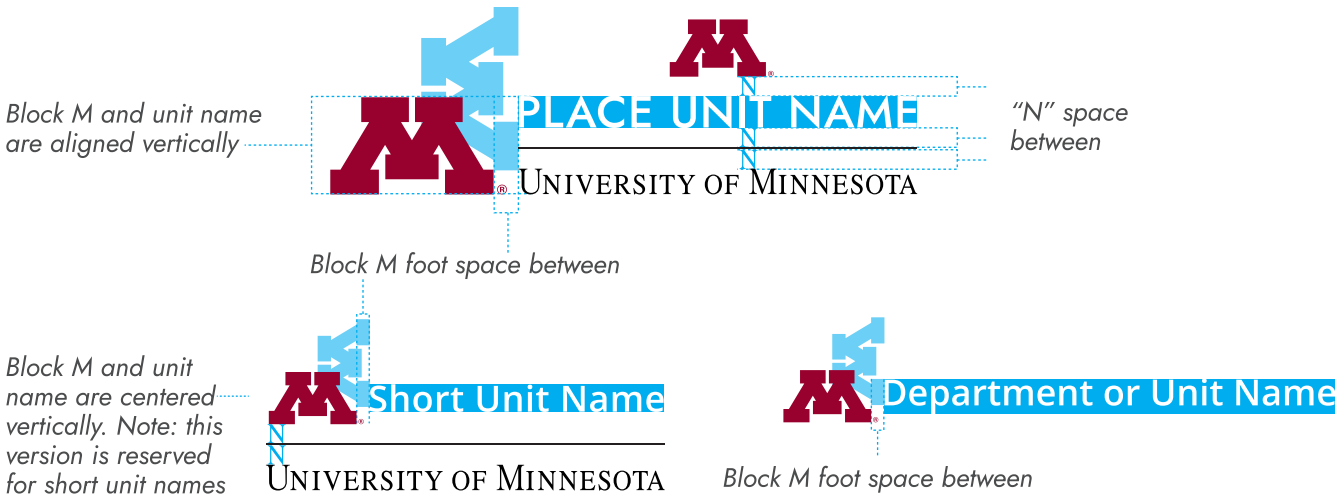
Wordmark and unit combination for use in print or on digital. Do not use on University websites.
To create combinations, open this PDF in Adobe Illustrator.

Updated 10-6-25

TEMPLATES



SPACING

Between the unit name and the line, use space equal to or greater than the height of the letter "N" in the wordmark (.1013" as shown here). Allow a Block M foot space between the Block M and the rest of the combination.

REGISTRATION MARK

A registration mark ® must appear with the block M.

COMBINATIONS THAT MAY BE CREATED

EXAMPLES

Unit Name on One Line

UNIVERSITY OF MINNESOTA

Open Sans Semibold Name

Helvetica Neue Medium

UNIVERSITY OF MINNESOTA

Helvetica Neue

UNIVERSITY OF MINNESOTA

OPEN SANS SEMIBOLD

UNIVERSITY OF MINNESOTA

Department Name in Jost

Typeface is in Corbel Bold

UNIVERSITY OF MINNESOTA

Corbel Department

UNIVERSITY OF MINNESOTA

SUGGESTED FONTS

Jost, Open Sans, Helvetica Neue, Corbel, or other simple sans serif fonts in all caps or upper/lower case.

SIZING

Choose a font style and size that looks balanced with the wordmark—not too small or too big. Units may choose to use a uniform size, even if the type is not as wide as the wordmark.

The Block M within a unit wordmark must not be resized, altered, or scaled independently from the rest of the lockup.

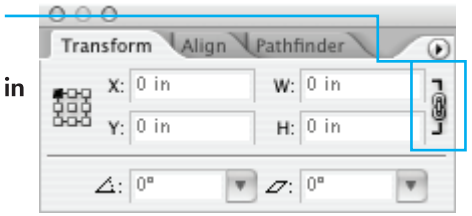
Detailed instructions for how to create a wordmark and unit combination

INSTRUCTIONS

1. Copy/type the unit name into a text box on page 1. Suggested fonts: Jost, Open Sans, Helvetica Neue, Corbel, or other simple sans serif font.
   a. Outline all fonts (Type –> Create Outlines) and group any loose pieces (Object –> Group).
2. Make the unit name the same width as the wordmark.

   In the Transform palette (Window –> Transform)

   a. Lock proportions; make sure the chain icon is linked, as shown here.
   b. Select the unit name and enter **2.0769 in** in the **W:** field for templates A or C. Enter **1.4722 in** in the **W:** field for template B. Hit enter or return. The unit name should now have scaled proportionally to 2.0769″ wide.



3. Center (A) or left align (B and C) the unit name in one of the turquoise boxes, aligning it on the bottom edge. **The unit name may not drop below or be wider than the turquoise box.**
   a. Place the unit name somewhere above and to the right of the turquoise box.

   In the Align palette (Window –> Align)

   b. Select the unit name and the turquoise box. Choose Align To: Selection, then click the align left and align bottom buttons (shown above).
4. Copy the combination into a new document and save as EPS for print. For Word, Powerpoint, or digital, choose Export As under the File menu. Export as PNG at 600 ppi.

USING THE BLOCK M

Optional: Use the block M centered on the top, or placed to the left, of the wordmark and unit combination.

1. A Block M foot or "N" space separates all elements of the wordmark and unit combination. The "N" space is equal to or greater than the height of the letter "N" in the wordmark (.1013″ in this template).
2. Square rule: The combination of unit name, block M, and wordmark may be no taller than it is wide. In this template, it may not be taller than 2.0769″.
3. For one-line unit names, the block M on the left should be the same height as the wordmark and unit combination. For multiple lines, extend the block M to the top of the last line of the unit name. Use your best judgement. The block M should not overpower the combination.

   In the Transform palette

   a. Select the wordmark and unit logo and see what the H: field reads.
   b. Deselect the combination and select only the block M. With the "transform from" area selected on the bottom right (shown here), enter the height found above into the H: field.

MINIMUM SIZE OF WORDMARK AND UNIT COMBINATION

The word Minnesota in this template measures .875″. Per wordmark minimum size guidelines, **the wordmark in this template is as small as it can appear on anything 3″ x 5″ and larger**. For items smaller than 3″ x 5″, the word Minnesota must measure at least .625″.

HOW TO USE THE WORDMARK AND UNIT COMBINATION

The wordmark and unit combination is for use in print or digital—PowerPoint, Word, digital signs, etc. It is not for use on University websites.

a. For print, save your wordmark-unit combinations as EPS files (File –> Save As > Format: Illustrator EPS).

b. For digital, first change the document color mode to RBG (File –> Document Color Mode –> RBG Color), then select all the maroon pieces of your combination mark, such as the block M, and change the maroon from "maroon cmyk" to maroon #710019 in the Swatches panel. Finally, export your combination versions as PNG files (File –> Export As –> Format: PNG –> 300ppi resolution or higher), or save as as SVG files (File –> Save As > Format: SVG –> Image location: embed and Decimal Places: 7).

When using a unit name separate from the Wordmark, the Wordmark must be included somewhere on the designed piece (poster, flyer, etc.). For example, a postcard may contain the Block M/unit combination on the front and the Wordmark on the back.
